

**EVALUATION FORM**  
**Journal of Advanced Mathematical Studies**

1. Quality of the paper:

excellent       good       medium       poor

---

2. Originality/novelty of the paper:

excellent       good       medium       poor

---

3. Topic's interest:

of great interest       interesting       of no interest

---

4. Organization and clarity:

very good       good       poor

---

5. Is the abstract informative and concise:

yes       no

---

6. References related to the paper:

very good       good       poor

---

7. Language:

very good       good       poor

---

8. Conclusions:

◆ Recommendation for publication in J.Adv.Math.S.:

the paper can be published in the present form

possible publication, after:

minor revision

major revision

the paper must be rejected

◆ Recommendations and comments for author(s):
