ONE-STEP IMPLICIT ALGORITHM FOR TWO FINITE FAMILIES OF NONEXPANSIVE MAPS IN HYPERBOLIC SPACES

H. FUKHAR-UD-DIN, A. R. KHAN, A. KALSOOM AND M. A. A. KHAN

Abstract. We propose and analyze an algorithm for two finite families of nonexpansive maps on a hyperbolic space. Our results refine and generalize several recent and comparable results in uniformly convex Banach spaces as well as $CAT(0)$ spaces.
